SUMMARY

Computer Science undergraduate with strong analytical and programming skills, passionate about data analysis and problem-solving. The candidate has expertise in Excel, SQL, Python, and data visualization techniques which enable him to extract insights from complex datasets. The candidate has experience in developing machine learning systems and analytics projects which address actual problems. I want to work as a Data Analyst because I want to use my analytical skills and ability to make data-driven decisions.

EDUCATION

B.Tech in Computer Science and Engineering Hooghly Engineering & Technology College(MAKAUT) CGPA-8.0(till 7th Semester)	September 2022 - Present
Higher Secondary(HS) Hindu School(WBCHSE) Percentage- 85%	May 2020 - June 2022
Secondary(Madhyamik) Hindu School(WBBSE) Percentage- 80.57%	March 2019 - April 2020

TECHNICAL SKILL

Programming Languages: C, Java, Python
Database Management: SQL, MySQL, MongoDB
Data Analysis: Microsoft Excel (Pivot Tables, VLOOKUP, Data Visualization)
Web Development: HTML, CSS, JavaScript, PHP, React, NodeJS
Tools & Platforms: GitHub, VS Code, Microsoft Word, Microsoft PowerPoint
Operating Systems: Windows, Linux
Design Tools: Canva, Photoshop, Lightroom

PROJECTS

SOFTWARE AND AI/ML PROJECTS

- **AgriDiseaseNet: Hibiscus Plant Disease Detection Using a Modified CNN with Explainable AI (XAI)**
 - B.Tech Final Year Project | Submitted at International Conference ACMESGA 2K26, JIS College of Engineering
 - Developed a lightweight ESP-32 based real-time CNN system with structured RGB and texture feature engineering, achieving 98% accuracy and SHAP-based interpretability
- **KISHANSEVA**
 - **Tools & Technologies: PHP, HTML, CSS**
 - Connecting Farmers Directly To Buyers
 - Developed a web-based platform that enables farmers to directly connect with buyers, reducing dependency on middlemen.
 - Project Link- <https://github.com/Sayar-21223/kishanseva>
- **ApnaMakan – Apna Sapna, Apna Makaan**
 - **Tools & Technologies: HTML, CSS, JavaScript**
 - Developed a property listing website that allows users to explore and browse real estate properties.
 - Implemented interactive UI components using JavaScript for improved user experience.
 - Designed responsive layouts using HTML and CSS.
 - Project Link: <https://github.com/Sayar-21223/ApnaMakanSC>

- **TECHETC2K25 – College Tech Fest Website**
 - **Tools & Technologies: React, NodeJS**
 - Designed and developed the official website for the TECHETC 2025 college tech fest.
 - Provided event details, schedules, and information for participants and visitors.
 - Project Link: <https://www.hetc.ac.in/TECHetc2K25>
- **MindGuard AI – Mental Health Detection System**
 - **Tools & Technologies: HTML, CSS, Machine Learning**
 - Developed an AI-based system to detect suicidal thoughts from social media text using machine learning techniques.
 - Applied text preprocessing and classification models to analyze mental health related patterns.
 - Created a simple web interface for users to input text and receive analysis results.
 - Project Link: https://github.com/sayar2121/Mental_Health_Detection_by_Social_Media_Text
- **HomeValue AI**
 - **Tools & Technologies: Python, Pandas, NumPy, Scikit-learn, Machine Learning**
 - Developed a machine learning model to predict house prices based on property features such as area, number of rooms, and other housing attributes.
 - Performed data preprocessing, cleaning, and exploratory data analysis to prepare the dataset for training.
 - Visualized relationships between features and house prices to improve model understanding and prediction accuracy.
 - Project Link: https://github.com/sayar2121/House_Price_-_Style_Prediction

DATA ANALYTICS PROJECTS

- **Sales Data Analysis Dashboard**
 - **Tools: Excel, Data Visualization**
 - Analyzed monthly sales data to identify trends and performance insights.
 - Used Excel formulas, pivot tables, and charts to build an interactive dashboard.
 - Generated insights on product performance and revenue patterns.
- **Customer Purchase Behavior Analysis**
 - **Tools: Python, Pandas, Matplotlib**
 - Performed data cleaning and analysis on customer transaction datasets.
 - Identified purchasing trends and seasonal buying patterns.
 - Visualized data using Python libraries for better interpretation.

LEADERSHIP & ACTIVITIES

- **Graphics Design & Social Media Lead**
 - GDG HETC
 - Designed promotional graphics and digital content for technical events and workshops.
 - Managed social media engagement and branding for the developer community.
- **Student Coordinator – Photography Club**
 - Coordinated photography activities and supported media coverage for college events.
 - Collaborated with team members to organize creative and technical initiatives.
- **Hackathon Participation**
 - Participated in hackathons including ETHIndia 2024, Hack-O-Knight, Ctrl+Alt+Vibe, MumbaiHacks 2025, Hack4Brahmaputra, HackNITR 5.0, and Diversion 2k24.
 - Developed innovative solutions in areas such as AI, web development, and blockchain-based applications during hackathons.

DECLARATION

I hereby declare that the information provided in this Curriculum Vitae is true and correct to the best of my knowledge and belief. I take full responsibility for the authenticity of the details mentioned above.
